Almost 60 morphological or host-specific species can be assigned to this section, including the type species of the genus *Alternaria*, *A. alternata* (Woudenberg et al. 2013). *Alternaria alternata* is known as the cause of leaf spot and other diseases in over 100 host species ... **The Colletotrichum gloeosporioides species complex ...** The limit of the *Colletotrichum gloeosporioides* species complex is defined genetically, based on a strongly supported clade within the *Colletotrichum* ITS gene tree. All taxa accepted within this clade are morphologically more or less typical of the broadly defined *C. gloeosporioides*, as it has been applied in the literature for the past 50 years. We accept 22 species plus one subspecies within ...
