In this paper a family of one-dimensional nonlinear systems which model the blood pulse propagation in compliant arteries is presented and investigated. They are obtained by averaging the Navier-Stokes equation on each section of an arterial vessel The Henry Samueli School of Engineering Requirements for the Bachelor's Degree. All students in The Henry Samueli School of Engineering must fulfill the following requirements. All students must meet the University Requirements. All students must meet the School Requirements: Mathematical and Computational Sciences | Programs and ... COMMON BREADTH REQUIREMENT. Students must take at least 15 semester hours of credit beyond the core course requirement in courses outside the School of Mathematical and Computational Sciences, and of these 15 semester hours of credit at least 6 must be from outside the Faculty of Science. Biological Sciences Laboratory Research. To complete the specialization in cancer biology, students will also carry out an individual guided cancer research project that is written up as an honors thesis and evaluated by an honors thesis committee, and attend cancer biology-related seminars.
